ABOUT ME

Enthusiastic and motivated B.E graduate with a strong interest in cloud computing. Skilled in Microsoft Azure and AWS cloud platforms, along with experience in related tools and services. Eager to apply my technical knowledge and continuously learn while contributing to innovative cloud-based projects in a dynamic organization.

EDUCATION

ST.JOSEPH'S INSTITUTE OF TECHNOLOGY

Electronics and Communication Engineering(B.E)

2019 - 2023

- Specialization in Electronics and Circuits.
- strong knowledge about networking.

SACRED HEART CONVENT ANGLO IND.HI.SEC.SCHOOL

XII - STD

2018 - 2019

- Specialization in computer Science and Maths
- Also knowledge in Physics

SACRED HEART CONVENT ANGLO IND.HI.SEC.SCHOOL

X - STD

2016 - 2017

- Educated in Science and Maths and History
-

CERTIFICATIONS

ICT Academy - AWS FUNDAMENTAL(Amazon certification)

2023

- Understanding of core AWS services such as EC2, S3, RDS, and VPC
- Knowledge of IAM (Identity and Access Management) for secure access control
- Familiar with AWS Management Console and AWS CLI
- Basics of networking concepts in AWS (VPC, Subnets, Route Tables, Security Groups)
- Experience with Elastic Load Balancing (ELB) and Auto Scaling concepts
- Understanding of storage and backup services like S3, EBS, and Glacier
- Basic knowledge of AWS Lambda and serverless architecture
- Familiar with monitoring and logging using CloudWatch and CloudTrail
- Understanding of cost management and AWS pricing models
- Exposure to deployment and configuration using AWS CloudFormation

- Hands-on experience in Azure portal and Azure PowerShell for resource management
- Knowledge of Azure Virtual Machines (VMs) – creation, configuration, and scaling
- Managing Azure Storage accounts, blobs, files, and access policies
- Understanding of Azure Virtual Networks (VNet), subnets, NSGs, and VPN gateways
- Configuring and managing Azure Load Balancer and Application Gateway
- Implementing Azure Active Directory (AAD) for user and identity management
- Managing role-based access control (RBAC) and Azure policies
- Monitoring and troubleshooting using Azure Monitor, Log Analytics, and Alerts
- Configuring backup and disaster recovery using Azure Backup and Site Recovery
- Understanding resource groups, ARM templates, and cost management tools.

CAMBRIDGE UNIVERSITY - ENGLISH**2022**

- Fluency in speaking, writing and vocabulary
- Level - B1

TECHNICAL SKILLS

- | | | |
|--------|----------------|-----------------|
| • AAD | • RBAC | • VNet |
| • IAAS | • Entra ID | • Peering |
| • PAAS | • Blob Storage | • Instance |
| • SAAS | • VMSS | • ARM Templates |
| • S3 | • EC2 | • Terraform |

SOFT SKILLS

- | | | |
|--------------|-----------------------|--------------------|
| • Powershell | • Command prompt | • Time managing |
| • VScode | • Adapting technology | • Trouble shooting |

SUMMARY

I hereby acknowledge that the up shown skills and certifications are all of my full knowledge and legit.

- “Immediate joiner”
